

## ABSTRACT

An information recording medium has recorded thereon a plurality of sets of still image information to be continuously played back in the form called a slide show audio information to be played back in synchronization with the still image information. Also recorded on the information recording medium is playback control information for playing back the audio information in synchronization with the sets of still image information. When the still image information sets are sequentially played back, the audio information is played back in synchronization with the still image information according to the playback control information. The playback control information includes audio repeat information for controlling the repetition of the audio information. The repeated playback of the audio information is controlled according to the audio repeat information.
